

# Nature CRITTERS

Here's a fun way to make art on the trail!

- 1 Think of a critter you want to make — a fierce bug, a big bird, or a friendly animal.
- 2 Look for a leaf, pinecone, stick, or rock for the body. Collect long pine needles or twigs for legs and whiskers. Pick up acorn caps and large seeds for eyes. Look for dried leaves or milkweed pods to make wings.
- 3 Arrange your nature finds on the ground. Put the eyes, legs, whiskers, wings, and tail on the critter's body.

Now give your critter a name and take a photo. Leave your critter where you created it!

This is Twiggy!
